

Spiritual Cell Phone Assignment

The teaching today is in regards to your ability to increase your wisdom, knowledge and understanding. This assignment that Brother Big Levi shared provides us with a tool of communicating and receiving spiritual answers to questions that we have been seeking. As always, please be sure to pray and check your heart to assure that you are moving forward with as pure and clean intentions (heart and mind) as possible. For those that are unsure, just think about the old spiritual song, *_ESUS, is on the main line...tell him what you want, ohh, _ESUS is on the main line, tell him what you want...* In this case, we are still going to pray, however, we are going to utilize parchment paper made with sheep skin and write out our question. Parchment paper is the paper of the ancients; and as I shared in my last update, parchment paper is what most of the scriptures, dead sea scrolls and other ancient texts were written and preserved. Here are the steps.

1. Fold your parchment paper in half, and then half it again. It should be four sections; cut.
2. Draw the below diagram. You may free hand, or use your geometry kit. I ordered my geometry kit, it was \$6.00 on Amazon
3. In the outer or big circle write your guardian angels name. Or you may write the specific angel for their purpose of what you are seeking or asking (**For example:** Menadel is the angel regarding employment/ livelihood. Pahaliah is my personal guardian angel. (The Angel Dictionary is under books/pdf)
4. In the smaller circle write your full name or the name which you are known.
5. Under your name, write your question. One question at a time & a clean sheet of paper each time!!
6. Pray and place the quarter sheet under your pillow while you sleep, and if possible fall asleep on your right side. Avoid putting your hand under your head/pillow and when you awake, you should have received your answer while sleeping/dreaming.
7. Report out and share with the Nation how awesome and mighty is The Most High; whom has endowed us with prior knowledge and tools so that we might continue to gain wisdom and understanding, particularly of our own personal journeys!
