

Enemy/Persecutor Revelation Experiment

Tools & Ingredients Required:

- A Small Mirror
 - A Penny
- A Pinch Of Sesame Seeds

* An Important Note – One MUST operate with great devotion to the Mighty One in order for any experiment to be successful. Also, purification with water and sea salt would be preferred before undertaking this operation. My personal experience with this operation, I purified myself with water and salt and allowed the mixture to pour over my body from the crown of my head to the soles of my feet. I then put on a clean white garment and gathered all of the necessary tools of the art together. I repented and prayed to the Mighty One asking for passage to undertake the operation and to render it successful. I orated also that I would like the persons who persecute me to be revealed clearly and concisely so that I will remember them all upon waking.

Instructions:

- + Light up your white candle with the oration “DIAH+NIAH+ZIAH” “FIAT+LUX”
- + Open the FOUR Quarters of the Universe and call upon the Intelligences that are with you (your guardian, your Celestial Principles) for guidance and assistance
- + Consecrate ALL tools and ingredients (I used frankincense and a censer) taking care to banish all impurities and hostile phantoms from them. With the sesame seeds; wake them and give them the task you want them to perform. Command them to do your will.
 - + Lay the MIRROR flat on a table facing upward
 - + Place the PENNY heads up on the face of the mirror
 - + Take a pinch of SESAME SEEDS and put them upon the head of the penny
- + Ask the Intelligences and Principles that are with you to reveal your enemies to you clearly and to allow you to remember them upon waking
