

Infection Remedy – (for heavy skin infections)

Ingredients Needed:

1. 3 Key Limes

2. Handful of Senna Occidentalis (also known as: coffee senna, negro-coffee, styptic weed, cassia occidentalis, septicweed, coffeeweed, Mogdad/Stephanie coffee)

*The senna occidentalis can be found in dry form on eBay. It ships from Sri Lanka so it may take about a month to get to you. FYI: It is limited in stock, so if you are able, get it right away.

Preparation Instructions:

*Before any operation we undertake, remember we must always have a white candle lit. We are lightworkers and we do not work in darkness. Orate the words “Fiat Lux” and strike your match, transmute your fire and light up your candle. Open the four quarters of the Universe and ask the Most High for passage to commence the operation. Speak to the ingredients; wake them up and tell them what you want them to do for you. As children of the Mighty One, we always wake up and task our ingredients, thanking them and the Spirit over the earth for providing them for us.

Boil 1-2 liters of water in a pot and put the handful of Senna Occidentalis in the pot. Let it boil.

Squeeze the 3 Key Limes into the water and let the pot sit and cool off.

Dosage:

Take one cup before sunrise (before you eat)

Take one cup after sunset (before bed)

Take for 2 weeks straight

Great Praise and Glory Be to ADONAI for His Unbounding Mercy & Kindness
