

Shalom Beloved Family,

This document outlines the Spirit Intelligences the Angles/Angels in CANCER. The simplest directions for these sigils or talismans is to write the names or draw the sigil in the described color on a piece of parchment paper inside of a Spiritual Cell Phone (or double circle) and consecrate the paper after Prayer and Fasting. For the initiates, construct the Talismans following a Spiritual Bath, utilizing the associated planetary/chakra incense with the Moon as the template for when to conduct the Talismans, ensuring that no spiritual work is done on the New Moon, if you are a man or not of childbearing age, or when you are in your new moon cycle if you are of childbearing age.

Working with the Spirit Beings requires a mature attitude, genuine curiosity, and dedication. Our Ancient Ancestors called upon the Spirit Intelligences to work with them on everything from housework to astral projection. In order to regain our connection with these Spirit Intelligences, you must first remember who you are: Stardust wrapped in Flesh, a Child of Light, A Human Ego with Divine Spiritual Connections, and most importantly a Divine Being manifesting the Fruits of the Spirit.

The Goddesses of Karma and the Divine Director have instructed me to produce this work as a workbook to learn the Earthly Mother Angels for the Spiritualite Nation. This is available on my website.

Woe unto anyone who may use this information to harm a Child of Light!

Peace and Blessings unto you,
Sophia Spiritualite | FruitsandSpirit.com | sophiaspiritualite@gmail.com

Cancer- Talisman to be drawn in SILVERY/WHITE Ink		
1° Cancer	NABLUM	This Spirit Intelligence will be pleased to inform the magician, by inspiration and intuition, on the various degrees of warmth - temperature - in respect of alchemic or spagiric methods. However, since these not only play a role in the preparation of plants and metals, but also other fluids, for instance light, colour, tone, oscillation etc., the magician may also be informed by him on these things. NABLUM is an expert in alchemic and spagiric operations, and the magician can profit much in this respect by his inspirations.
2° Cancer	NUDATONI	The magician, being in connection with this head, gets from him closer information on the eruptions of volcanos on our physical world and on the earth- quakes with them. NUDATONI can inform the magician in advance when a volcanic mountain will throw out lava. NUDATONI, or his servants, can, if requested, accompany the magician on his mental or astral wanderings into places deep under the earth to show him hot springs, caves with stalactites, hidden treasures or anything else which is to be found under the surface of the earth. This head is at the same time a very good initiator into the science of pyrotechnics, especially as far as operations with the electric and magnetic fluids are concerned, and he informs the magician how to bring about various pyrotechnical miracles in a magic manner with these fluids.
3° Cancer	JACHIL	This Spirit Intelligence knows about all erotic secrets and can initiate the magician into them. He is always prepared to

		furnish the magician with many magical means by which love can be aroused or diminished. Apart from this, he informs the magician how he can, by the force of magic, make himself beloved by and attractive to the other sex, and how one may become effective from the erotic point of view. He will, if he wishes, be informed by this intelligence on the most secret arts of sex magic.
4° Cancer	HELALI	This head is an excellent initiator into sympathy-mummial magic. He can give information on how, with the help of the elements, the magician practising mummial magic can bring about various effects, and he can apart from that, explain to the magician the influence of the electric and magnetic fluids on nature. HELALI introduces the magician into special working methods which have not been known to anyone up to now and which have to do with mummial magic. The special mummial-magic instructions given by him or by his servants can help the magician bring about effects which he would have never thought of.
5° Cancer	EMFALION	This Spirit Intelligence advises the magician on how he can get a strong and healthy constitution, a handsome, attractive face, fascinating eyes, i. e. the freshness of youth which he will preserve into advanced age. From EMFALION the magician gets the necessary instructions for the preparation of substances by which he can so impregnate his body that it will not decay. If a magician has a good connection with this head, he will be given the appearance of a youth, though he may already be rather old, or he may at least always give his fellow-men the impression that he is but a middle-aged gentleman. Also the preparation of magic elixirs from various plants for special magic purposes will be fully revealed to the magician by this intelligence.
6° Cancer	PLIROKI	This Spirit Intelligence explains to the magician the actual facts about the so-called "message through the air" which is especially well known in the East. He tells the magician, should he wish it, about suitable methods in which he is an expert, so that finally the magician will also be able to send messages to far off people, no matter whether they are initiates or not. The magician is taught by this head to make this phenomenon work on the mental and astral, and sometimes even on the physical plane by help of the electro-magnetic fluid and the air element, or by the help of beings, spirits, and the like. The magician will also be able to bring about other magical phenomena by the help of PLIROKI.
7° Cancer	LOSIMON	This Spirit Intelligence informs the magician on the original mysteries and original systems of the religious beliefs of the oldest peoples of the world and also on the magic phenomena which the people of the times past, especially their high priests, were able to create. LOSIMON knows in what way and under which circumstances the phenomena of those days could be brought about today, and, if requested by the magician, he will initiate him into these methods. At the same time this head is

		able to reveal to the magician the secrets of the phenomena of levitation, so that these can either be brought about by the help of beings or by the special powers or faculties which the magician has acquired, because he has learned to control the electro-magnetic fluid, and by the help of these fluids the magician is able to regulate or overcome the gravitation of the earth. The magician is, in that case, able to withdraw from the earth its power of gravitation and by doing this he makes himself - and also other people - as light as a feather so that, in consequence, he is able to walk along the surface of waters without sinking or to lift his body into the air. That he can practice this art with any object whatsoever is quite clear.
8° Cancer	KILIKI	This Spirit Intelligence initiates the magician into the mysteries of rhythm and vibration, and, at the same time, teaches him how both rhythm and vibration can be set at work in any sphere or plane. KILIKI is regarded as the master of life, for life is nothing else but rhythm and vibration.
9° Cancer	ORAMOS	This Spirit Intelligence can give excellent information on occult faculties, especially on clairvoyance, clairaudience, clair-feeling, psychometry, and the like. He gives the magician special instructions concerning the manufacture of magic mirrors, their charging with certain influential powers etc. and he teaches the magician how to charge mirrors in the quabbalistic manner. Even though the magician might be a perfect clairvoyant, ORAMOS can teach him how to increase his acquired faculties. This head also advises the magician on how he can procure familiar spirits for certain purposes and how he is to treat these. ORAMOS gives the magician also exact information on the so-called "controlling spirits" for magic operations. If the magician has a good connection with this intelligence, he may get from him many other good and valuable hints.
10° Cancer	TARATO	This head instructs the magician how to influence the weather by the magic of water, by electrical and magnetic fluids, by magic rituals, by the cosmic language, and the like. He who has good contacts with this head can let it rain or stop raining at his will, can lead lightning into a certain direction, can cause a hail-storm and is, in general, able to bring about and evoke anything that has to do with the weather.
11° Cancer	HOROMOR	This head knows all high magic mysteries - mysteries of initiation - of the zone girdling the earth and also of our physical world, and can not only teach the magician to understand them, but he is also able to arouse the magician's intuition and inspiration by his radiation in such a manner that he learns to control all mysteries of wisdom from the universal point of view. One may call this head the instructor in magical enlightenment.
12° Cancer	TMAKO	This Spirit Intelligence initiates the magician into all secrets of transmutation of powers, effects, and the like, in the zone girdling the earth and into the secrets of plants, minerals and

		metals in our physical world. This intelligence, too, may be called a guardian of true alchemy.
13° Cancer	NIMALON	Any magician dealing with invisible beings and intelligences and also acquainted with the science of the Quabbalah will sometimes have made the experience that it may be very difficult to reproduce intellectually the language of the beings and the cosmic language. NIMALON can assist the magician in this respect by making him acquainted with the methods by which he may acquire the faculty of finding, at any time, the right means to express and explain what might be communicated in the cosmic language and the language of beings and intelligences. NIMALON may therefore be regarded as a marvelous initiator into the mode of expression in all intellectual languages.
14° Cancer	CAMALO	This head is well informed on the remotest secrets of magical science and shows the magician means and ways, as well as methods, by which he can make himself invisible. It is with CAMALO help that the magician becomes invisible, i. e. that he can betake himself into all spheres, mentally, astrally and, if necessary, also physically, without being recognized there. The faculty of making oneself invisible anywhere desired is quite a special faculty that is only controlled by a few magicians.
15° Cancer	NIMTRIX	This high initiator into magic teaches the magician the art of de-materializing any object by appropriate methods, that is to de-condense it, and to materialize, that is to condense it, again in the place where he wants to have it appear. The magician may also employ beings for the de-materialization and re-condensation which Nimtrix will place at his disposal, should the magician want it.
16° Cancer	KALOTE	This Spirit Intelligence is a phenomenal expert and master of cosmic laws. He is also an instructor in divine virtues and therefore informs the magician about these, showing him how these divine virtues, in their cause and effect, become valid under the legality of the microcosm and macrocosm.
17° Cancer	YSQUIRON	This Spirit Intelligence makes the magician recognize to what extent divine love, mercy and all parallel divine virtues in respect of their legality, harmony and justice are applied, and come into play in all the spheres and planes. From YSQUIRON the magician learns to differentiate these theurgic secrets. A magician who is allied to this head knows not only about the karmic effects in all spheres, but he also becomes acquainted - at the same time - with very high quabbalistic secrets of the divine emanation.
18° Cancer	SIKESTI	This Spirit Intelligence instructs the magician in respect of the most subtle analogies and secrets of the evolution of the microcosm and macrocosm. From SIKESTI the magician learns to know, at least from this intelligence's point of view, about the act of creation of everything as Divine Providence purposes it.
19° Cancer	ABAGRION	This Spirit Intelligence is an expert in magic formulae, and the magician in contact with this head is informed by him on the

		use of the various magic formulae and at the same time learns about their magical power of effectiveness in the mental, astral and physical world. Abagrion can teach the magician many magic formulae for his protection against negative and unwanted influences.
20° Cancer	KIBIGILI	The magician is taught by this head the faculty of evoking, with his mental body, subordinate beings in the zone girdling the earth, i. e. not in our physical world, and to protect himself against diverse dangers, malice, and the like. To carry out an evocation in the zone girdling the earth with the mental body alone is far more difficult than in the physical world, for there the magician has no supports for his consciousness. What can be effected by such evocations will be explained in detail to the magician by KIBIGILI.
21° Cancer	ARAKUSON	This Spirit Intelligence instructs the magician cause, purpose and effect of diverse laws and may, apart from this, lead him towards deep wisdom. ARAKUSON, like many other heads of the zone girdling the earth, may be regarded as a high priest of magic.
22° Cancer	MAGGIO	The magician is instructed by this head in how to put into action certain powers directly from the zone girdling the earth and how to realize them in the mental, astral and physical planes. MAGGIO allows the magician to penetrate deeply into Divine Emanation, i. e. into the workshop of Divine Providence.
23° Cancer	DIRILISIN	This Spirit Intelligence is master and initiator of the magic of space. The magician is taught by him how to become master of time and space not only in our physical world and the zone girdling the earth, but also in all other spheres of the macrocosm. What it means to be master of time and space in all spheres, can only be comprehended by a really mature magician. DIRILISIN gives him detailed information on how to make magical use of this faculty.
24° Cancer	AKAHIMO	This head instructs the magician on how to know and control the various degrees of oscillation of the divine virtues, qualities and powers from the Akasha-principle of the zone girdling the earth for the purpose of emanation. What this faculty means, cannot be explained by simple words; it can only be grasped by the genuine magician who also deals in practice with this high science.
25° Cancer	ARAGOR	This Spirit Intelligence makes it possible for the magician to look into the workshop of Divine Providence by using appropriate methods and purification procedures and to recognize and experience the correlative relations between the Akasha-principle and the Divine Light, the first emanation of Divine Providence. It need not be mentioned that this possibility leads the magician to the highest enlightenments of the zone girdling the earth.
26° Cancer	GRANONA	This Spirit Intelligence tells the magician about the means necessary for achieving cosmic alliances within the interplanetary spheres by diverse visions, no matter whether

		they occur in trance, during sleep, or in day-dreams; or whether they are caused by the help of magic mirrors. In this way the magician, assisted by GRANONA, may recognize, in the planetary spheres, causes and effects reproduced either in true shape or by symbols.
27° Cancer	ZAGOL	This Spirit Intelligence instructs the magician on the magic of cosmic spheres. If the magician places himself in any sphere with his mental body, for instance, into the zone girdling the earth in which he possibly intends to practise ceremonial magic, he can evoke, into this sphere, beings from other spheres in exactly the same way as if he were doing it in our physical sphere. What laws, and the like, have to be adhered to in case of such operations in certain spheres is a question on which ZAGOL will give the magician exact information.
28° Cancer	MENNOLIKA	This Spirit Intelligence is a master of the quabbalah, i. e. a master of divine theurgy. This head teaches the magician how to use divine names, in a quabbalistic manner, for various spheres. Apart from this, the magician is informed, by MENNOLIKA, about the various virtues of Divine Emanation, its cause and effect in each planetary sphere, from the quabbalistic point of view.
29° Cancer	FORFASAN	This Spirit Intelligence draws the magician's attention to the various systems of wisdom. He reveals to the magician his own individual way in which he will travel once he has reached a certain degree of maturity. In the zone girdling the earth this head is regarded as a protector of wisdom and the keys to it.
30° Cancer	CHARONTHONA	This Spirit Intelligence imparts to the magician diverse practices with the Akasha-principle. On the basis of special methods CHARONTHONA demonstrates to the magician how diverse magical operations have their direct cause in the Akasha-principle, and therefore produce effects. CHARONTHONA is an excellent connoisseur of the laws of cause and effect, i. e. an expert on Karma.
