

Shalom Beloved Family,

This document outlines the Spirit Intelligences for the Jupiter/Constellations. The simplest directions for these sigils or talismans is to write the names or draw the sigil in the described color on a piece of parchment paper inside of a Spiritual Cell Phone (or double circle) and consecrate the paper after Prayer and Fasting. For the initiates, construct the Talismans following a Spiritual Bath, utilizing the associated planetary/chakra incense with the Moon as the template for when to conduct the Talismans, ensuring that no spiritual work is done on the New Moon, if you are a man or not of childbearing age, or when you are in your new moon cycle if you are of childbearing age.

Working with the Spirit Beings requires a mature attitude, genuine curiosity, and dedication. Our Ancient Ancestors called upon the Spirit Intelligences to work with them on everything from housework to astral projection. In order to regain our connection with these Spirit Intelligences, you must first remember who you are: Stardust wrapped in Flesh, a Child of Light, A Human Ego with Divine Spiritual Connections, and most importantly a Divine Being manifesting the Fruits of the Spirit.

The Goddesses of Karma and the Divine Director have instructed me to produce this work as a workbook to learn the Earthly Mother Angels for the Spiritualite Nation. This is available on my website.

Woe unto anyone who may use this information to harm a Child of Light!

Peace and Blessings unto you,
Sophia Spiritualite | FruitsandSpirit.com | sophiaspiritualite@gmail.com

Constellations/Jupiter		
Aries	MALACHJDAEL	This Spirit Intelligence is the first genius of the Jupiter sphere, who keeps in equilibrium the electric fluid of the whole cosmic hierarchy. His job is to enliven everything created in all three kingdoms of our earth and the zone girdling the earth. MALACHJDAEL controls and directs the will and the activity of every human being and all other creatures. If the magician gets into contact with this original genius, he can be informed about everything regarding this and, apart from this, he will be made acquainted with methods which will enable him to increase or decrease activity at his will by force of magic and quabbalah. Following the directions given by this genius, the magician is capable of creating such a strong state of belief by magic and quabbalah that he can work miracles in the cosmic world due to this intensified activity. Besides this, MALACHJDAEL can initiate the magician into the original element of fire in all its aspects and analogies in the microcosm and macrocosm, and give him directions and methods regarding the complete control of this original element in all its phases by magic and quabbalah, in order to become absolute sovereign of activity in the microcosm and macrocosm. There are, however, many more laws, wisdom and kinds of knowledge regarding activity, electrical fluid, original fire element, principles of light, etc., with which this original genius may not only make the magician acquainted, but which the latter may also get under his control by an apt Abisheka, i. e. an apt transfer of power. In sphere magic, this original genius is one of

		the most powerful, and no magician should fail to get into contact with him, since he will, by this connection, gain a power in the cosmic hierarchy that no other intelligence of any other sphere, perhaps with the only exception of the Uranus intelligences, could give him.
Taurus	ASMODEL	This Spirit Intelligence is the second original genius of the Jupiter sphere. He is responsible for the direction and control of the original principle of cosmic love with all its aspects and analogies, in all spheres and on all planes and planets of the hierarchy. The magician who gets into contact with this original genius will be made capable of perceiving the deepest mysteries of love not only in its emotional and intellectual aspects, but also from the point of view of wisdom. This original genius explains to the magician how any kind of cosmic vibration of love can be caused in any sphere, no matter whether by evocation or mental wandering, whether by magic or by quabbalah. All miracles that can be caused and realized in love matters by magic and quabbalah, i. e. not only in our own physical world or in the zone girdling our earth, but also on all other planets and in all other spheres, are made available to the magician by this genius. All the ways of holiness which behold Divinity under the aspect of love are directed by Asmodel, and the conscious sphere magician is instructed, theoretically as well as practically, in all the aspects. The magician interested in the mysteries of cosmic love existing in the whole cosmic hierarchy will find this genius to be the best initiator.
Gemini	AMBRIEL	This Spirit Intelligences is the third original genius of the Jupiter sphere, who has under his command all knowledge of the whole cosmic hierarchy. He is the supervisor of the mind, of the intellect, i. e. of all theoretical knowledge in all fields of science. AMBRIEL directs the maturity for knowledge, the capacity of perception of each being in the whole cosmic hierarchy. Taking into consideration the grade of maturity and development, this genius not only directs the intellectual power of perception and the intellectual faculties of the individual, but of the total of the inhabitants of all planets. Under his range of competence come all the sciences and arts on all planets which have to do with the mind and intellect. The magician who has got into contact with this genius will be made acquainted, depending on the grade of his development, with a kind of knowledge which truly is only accessible to such initiates that have learned to work consciously with the Jupiter sphere by force of the Akasha-principle.
Cancer	MURJEL	The fourth genius of the Jupiter sphere has to control and keep in equilibrium the total magnetic fluid in the cosmic hierarchy. He is responsible for the fluid state on all planets and also for the element of water in the whole cosmic hierarchy, including our world, in its physical, astral and mental state. The magician can be fully instructed by this original genius in the original element of water, its workings and effects, regarding the whole

		cosmic lawfulness and in respect of magic and quabbalah, and furthermore, in the way by which, under the influence of the magnetic fluid, certain occult faculties can be wakened and developed in the mental body, for instance, transcendental seeing in all spheres and on all planets. This original genius can teach the magician many other things. The sphere magician who has a perfect command over the magnetic fluid can work miracles by its help, miracles which the non- initiate would never be able to imagine.
Leo	VERCHIEL	The whole life spending original principle of the whole cosmic hierarchy, on the planets as well as in the spheres, is controlled by the fifth original genius of the Jupiter sphere. All life in all spheres and on all planets, including our earth, is directed by him, no matter whether life in the vegetable, the animal or the human kingdom is concerned, or whether man in his physical, astral or mental body is in question. If the magician gets into contact with this original genius, he will be instructed by him in the highest form of magic and quabbalah, which refers to the whole cosmic hierarchy. VERCHIEL reveals to the magician special methods and practices by which he can get under his control the highest power in the whole cosmic hierarchy. Apart from this, all miracles which can be caused by belief and the power of conviction come under this genius' range of power.
Virgo	HAMALIEL	The sixth original genius is in charge of all chemical original principles, original elements, in the whole cosmic order. The magician who gets into contact with HAMALIEL can get detailed information not only about the chemical elements so far known on our earth, but also about unknown elements which probably will not be discovered before the far distant future. If the magician is interested, he can also learn the relevant facts about the elements existing on all other planets of the whole cosmic hierarchy and, what is more, he can be instructed in the practical magic and quabbalistic application of the radiation of each original substance of our planetary system, in its mental, astral and even physical shape. This makes it possible for the diligent magician to become, by training, a perfect master of the original chemical elements due to the exact methods and instructions given him. He thus becomes a magical quabbalistic alchemist equipped with a kind of knowledge of which the key to practical application is known to only a few Adepts on our earth.
Libra	ZURIEL	The seventh original genius of the Jupiter sphere controls the principle of fertility on all planets with vegetation and living creatures. Helped by ZURIEL, the magician can learn to understand fully the principle of fertility of the whole cosmic hierarchy. Special methods revealed to the magician by this original initiator enable the former to work miracles by magic and quabbalah at his will. The magician can, for instance, make water flow out of a rock like Moses, turn a desert into paradise and so on. But the sphere magician, after having been initiated by this genius, would also not find it difficult to work a

		miracle the other way round within a few seconds. He is then able to evoke many other miraculous things regarding the principle of fertility at his will. It is also quite clear that ZURIEL, the seventh genius of the Jupiter sphere, can thoroughly explain to the magician also the sexual mysteries of the cosmos in all its phases, kingdoms and spheres. Special treatment of this matter is therefore not necessary.
Scorpio	CARABIEL	The eighth genius controls and directs the original principle of radiation of the whole cosmic hierarchy, in mental, astral and physical respects. The magician who gets into contact with CARABIEL can reveal, by magic and quabbalah, or by magical quabbalistic metaphysics, any secret of the whole cosmic hierarchy in this respect, and he realizes how the various laws of the original principle of radiation can be applied in practice. The magician who is able to control the original principle of radiation becomes the absolute ruler of the microcosmic and macrocosmic hierarchy and he is then free to make practical use of his power according to his own ideas.
Sagittarius	ADUACHIEL	The control and direction of the original legality, of justice and equilibrium, i. e. of the perfect harmony in the whole cosmic hierarchy, in all spheres and on all planets of our universe, is in the hands of the ninth genius of the Jupiter sphere. The magician may be instructed by this genius in the highest wisdom and deepest mysteries of divine law, justice and equilibrium. At the same time he is taught by ADUACHIEL to apply all laws of the universe by magic and quabbalah, without causing any disturbance in its equilibrium.
Capricorn	HANAEL	The karmic original principle of the whole cosmic hierarchy has been controlled, from the beginnings of time, by the tenth original genius of the Jupiter sphere, on all planets and in all spheres. The magician taking interest in this particular matter can be informed of the effects of the karmic laws in all spheres and planes and he will learn how, from the magical quabbalistic point of view, the original karmic principles and their laws can be made use of in the various spheres.
Aquarius	CAMBIEL	The original principle of crystallization, condensation and hardening, in the whole cosmic hierarchy, in our whole universe, is controlled by the eleventh original genius of the Jupiter sphere. Moreover, this genius is also responsible for the regular cycle of all planets and therefore also for gravitation, the force of gravity, the power of attraction itself. The magician can be informed by CAMBIEL about all the secrets of crystallization, not only on our planet, but also on all the other ones. This means from the magic-quabbalistic point of view that the magician will be taught to change by alchemy, magic and quabbalah the principle of solidification through diminished or enlarged vibration, depending on the qualities of the substance, so that he is finally able to change, if he wishes, a gravel stone into a diamond, or, vice versa, a diamond into a gravel stone, thus making use of the knowledge acquired from CAMBIEL. Furthermore, the magician is instructed by this

		original genius in the laws of alchemy in its most subtle form, especially with regards to the so-called dry process. He is also informed of the practical application of gravitation from the magic-quabbalistic point of view. If a sphere magician so wishes, he can make the biggest pieces of rock as light as a feather and he is able to make light things so heavy that no force on earth is able to lift them up. This means that this original genius can easily explain to the magician any problem of levitation and that he knows many various methods by which the magician can acquire these faculties, and he will be pleased to inform the sphere magician about them.
Pisces	JOPHANIEL	The original principle of evolution on all planets, in all spheres and on all planes - the mental, astral and physical plane - of the whole cosmic hierarchy is controlled by the twelfth original genius of the Jupiter sphere. This genius is directing development and maturity in all spheres and on all planets. It is difficult to describe by words what experience and what gains the magician will make when he gets into contact with this genius. He will be equipped with a kind of profound knowledge and wisdom that scarcely can be comprehended by the intellect of a non-initiate.
