

Shalom Beloved Family,

This document outlines the Spirit Intelligences the Angles/Angels in LIBRA. The simplest directions for these sigils or talismans is to write the names or draw the sigil in the described color on a piece of parchment paper inside of a Spiritual Cell Phone (or double circle) and consecrate the paper after Prayer and Fasting. For the initiates, construct the Talismans following a Spiritual Bath, utilizing the associated planetary/chakra incense with the Moon as the template for when to conduct the Talismans, ensuring that no spiritual work is done on the New Moon, if you are a man or not of childbearing age, or when you are in your new moon cycle if you are of childbearing age.

Working with the Spirit Beings requires a mature attitude, genuine curiosity, and dedication. Our Ancient Ancestors called upon the Spirit Intelligences to work with them on everything from housework to astral projection. In order to regain our connection with these Spirit Intelligences, you must first remember who you are: Stardust wrapped in Flesh, a Child of Light, A Human Ego with Divine Spiritual Connections, and most importantly a Divine Being manifesting the Fruits of the Spirit.

The Goddesses of Karma and the Divine Director have instructed me to produce this work as a workbook to learn the Earthly Mother Angels for the Spiritualite Nation. This is available on my website.

Woe unto anyone who may use this information to harm a Child of Light!

Peace and Blessings unto you,

2° Libra	APOLLYON	This head has inspired mankind since its creation in respect of the working-up of metals, depending on their state of development. APOLLYON not only is the original initiator into all the ideas in this field, but he also is their loyal custodian.
3° Libra	PEEKAH	This head already taught the primitive peoples of the days of yore by inspiration that animal meat eaten in a raw state is not so delicious as roasted or cooked. He inspired a few individuals how to tell the difference between the various kinds of meat by tasting them and taught them by intuition to prepare many meat dishes. For the preparation of such meat dishes man started rearing domestic animals, so that during the course of time stock-farming was developed, whereby PEEKAH has

		always been, and still is, a good inspirer of mankind also in this respect. Smoked and tinned meat also come under the competence of this head. If requested by the magician, this intelligence will initiate him into the art of cooking and will acquaint him with many recipes for the preparation of meat dishes which so far have never been known.
4° Libra	NOGAH	The fertility and the power of propagation of men and women come under the power of this head. He controls by his vibrations the sexual sphere of both man and woman and decides on the ability for life in the seed. The magician can get a wealth of additional information on this field from this head.
5° Libra	TOLET	This head controls the feeding habits of man and shows him which kind of food is necessary for the maintenance of his health and what is harmful. This head also draws the magician's attention to the diverse kinds of food which serve as stimulants for the production of special states of mind.
6° Libra	PARMASA	This Spirit Intelligence is a master of gaiety and lets man laugh and enjoy himself from his very core. Under his competence fall amusing ideas, jokes, jests, anecdotes, comedies, and other sorts of entertainment. He or his subordinates inspire man to tell funny jokes and such like stories, or to write and perform them. If the magician is in contact with this head, he will himself become convinced that PARMASA always shows himself full of gaiety.
7° Libra	GESEGOS	Wood and everything connected' with it falls under the competence of this head. He is the guardian angel of all those people who are occupied with wood and its working, for instance, lumber-jacks, carpenters, joiners, cabinet makers, turners, carvers, patternmakers, etc. If the magician is interested in any of these fields, he can learn much from this head that has not been known up to this date; for instance, the impregnation of wood against all influences from elements, means which give wood, even the softest kind of wood, great resistance and duration, so that it can only be compared with steel. This head can make known to the magician many other interesting new ideas.
8° Libra	SOTERI	This Spirit Intelligence is the original initiator into all musical instruments that man has ever used, the most modern ones of the present age included. SOTERI inspires all composers. He teaches the magician who has musical talent or is interested in

Therefore all fashion designers and fashion creators, tailors, dressmakers, milliners, etc. are protected by him. If the magician is interested, he can have all fashions of all peoples, beginning from the prime origin to the present day, presented to him by this head in the Akasha-principle. He can even view the fashions of the days to come.
10° Libra	OMANA	The hairy covering of the human body forms a part of the competence of this head. He is the inspirer of all coiffures and kinds of beards. The magician who gets into touch with this intelligence may learn which substances will make hair grow and which will remove unwanted hairs, etc. OMANA can also make the magician acquainted with diverse substances for hair dyeing. Having personally evoked this head, I was shown, in the Akasha-principle, the hair colour of the future. Chemical substances will no longer be necessary, for these usually do harm to the roots of the hairs; the hair of man will be dyed by radiation apparatus without any evil effects on the hair and the hair-bed. However, I have been forbidden to say more about this. Nevertheless, the future will bring the proof of the prediction.

From the prime origin he has been teaching man by intuition how to make the most diverse kinds of intoxicating drinks, for instance, wine, mead, beer, liquor, etc. which are to put man into a happy mood and make him bear his lot more easily. However, this head must not be mistaken for the contra-genius of this sphere who controls the notorious drunkards. All those people are protected by ARATOR who have to do with the production and selling of alcoholic drinks. The magician may get from this head excellent recipes for the production of wine, beer and liquor, and, on top of this, certain advice on how these beverages can be ameliorated by various methods. He also reveals to the magician magic recipes and instructions on how, for instance, he can, under the influence of the amalgamation of elements, change water into wine; furthermore, how he can protect himself successfully against the influence of the alcohol contained in these beverages, so that even great quantities of alcohol will leave him sober.
18° Libra	MALATA	This Spirit Intelligence explains to the magician the secrets of human and animal blood. He not only tells him about its classification in groups and RH-factors - which is already known to the medical science of today - but many more things

		in the fields of science like medicine, chemistry, physiology, psychology, laws of heredity, etc. Apart from this, MALATA initiates the magician into the secrets of the blood from the magic and alchemical points of view, which, if put down on paper, would fill many volumes.

Following his intuitive inspirations, men have invented batteries, accumulators, the dissolving of metals by electricity, catalysts, etc. Electro-homoeopathy, too, comes under the competence of this head. He allowed me to look into the future, and I saw tiny quantities of chemical compounds changing into great electrical discharges with an immense voltage and amperage, the knowledge of which will be of great value to men in the technical and domestic domain. To give details about this here, would sound incredible and too much like a fairy story, and, in order not to sound ridiculous, I desist from giving any details. When mankind is more mature and more developed a few eminent individuals will be inspired by this head with new inventions and discoveries.
21° Libra	CHEIKASEPH	This Spirit Intelligence is regarded as the original initiator into mathematics on the earth. The range of competence of this head varies from the easiest adding operations to the most difficult mathematical problems expressed by astronomical figures, including the basic ideas of the mathematical figure, of measurements and weights in relation to matter. From this head the magician may learn, for instance, how to express an idea in mathematical figures and he may, on the other side, be informed how to accumulate intellectually the knowledge of quantities and qualities. The magician is also initiated by CHEIKASEPH into the so-called quabbalistic quadruple key, which brings the four fundamental mathematical operations, i. e. adding, subtracting, multiplying and dividing, into relation to quabbalistic science, to the elements of the micro- and macrocosm. For the reader's information I mention here a number of faculties which this head can awake in the magician: the art of reading from a person's face (physionomy), the art of reading from a person's forehead, the art of chiromancy, of diagnosing from fingers and fingernails, from the eyes, etc.
23° Libra	GARINIRANUS	This Spirit Intelligence is the initiator into physics. Everything that has been explored in this field up to the present day has happened on account of the intuitive inspiration by this head. The magician may not only learn from this intelligence about the achievements of physics in the far future, but he may also be initiated into all phases of metaphysics and receive instructions on how to make practical use of this. ISTAROTH can change the magician's worst enemy into his best friend and secure him the love, friendship and sympathy of any person.
25° Libra	HAIAMON	This Spirit Intelligence instructs the magician in the transmutation of the sexual power of man and entrusts him with various relevant practices that so far have remained quite unknown. HAIAMON knows about the most secret mysteries in this line. The magician may learn very much from this head, such as, for instance, how to increase or decrease sexual power, how this can be transmuted for various magical practices into the original elemental substance, etc. He can also give information on new, so far unknown compounds of hormones, and of many other things.

All the people are protected by this head who are involved in the manufacture of jewels, i. e. gold-miners, gold-smiths, jewellers, etc. The magician may also learn many interesting things from CANALI in this respect
27° Libra	AGLASIS	Everything connected with milk in respect of man and animal comes under the competence of this head, who is justly regarded as the guardian of babies and mammals. AGLASIS has, during the course of time, taught mankind to milk animals and not only to use the milk as a beverage, but also for the making of other products. Thus man has learned to produce from milk butter, cottage cheese, and so on. The working up of milk is still very far from having reached its climax, and the magician may be introduced into many novelties in this respect.

28° Libra	MERKI	All animals living in the water and their propagation are under the competence of this head. MERKI is the protector of all fishermen on earth. He is responsible for good and bad luck in fishing. He has taught mankind to tin fish. This industry, too, is far from having reached its summit, and there are still many discoveries to be made which will astonish man. Under his special care are all those people who have to deal with hygiene in medicine. FILAKON is also the originator of the fact that many diseases are caused by infection, he renders the means to man to recognize these and protect himself against them. FILAKON is the protector and initiator of all bacteriologists, toxicologists and other people who deal with the research of diseases caused by bacteria, bacilli, virus, etc. This head draws the magician's attention to diseases which at the moment are regarded as the scourge of mankind, and which are being caused by infection. He does not only make the magician acquainted with the true cause of a disease, but he also tells him confidently how any disease can be coped with successfully. If the magician wishes it, he will tell him about diseases which up to this date have remained unknown and about the way in which they can be cured.
30° Libra	MEGALOGI	This Spirit Intelligence is somehow connected with the head dealt with before: he guards all the medicinal springs on earth. He even causes animals to step into certain waters instinctively in case of injuries. With MEGALOGI assistance man has learned from the animals how they cure themselves of certain diseases, and he has used these observations to his own advantage. Thus the various treatments by medicinal waters were introduced and many places with mineral springs have been changed into health resorts for the welfare of man. MEGALOGI does not only lead the magician's attention towards mineral springs which up to now have not yet been discovered, but he also initiates him into the complete field of hydrotherapy and entrusts him with practices which are still completely unknown to science.
