

Shalom Beloved Family,

This document outlines the Spirit Intelligences the Angles/Angels in PISCES. The simplest directions for these sigils or talismans is to write the names or draw the sigil in the described color on a piece of parchment paper inside of a Spiritual Cell Phone (or double circle) and consecrate the paper after Prayer and Fasting. For the initiates, construct the Talismans following a Spiritual Bath, utilizing the associated planetary/chakra incense with the Moon as the template for when to conduct the Talismans, ensuring that no spiritual work is done on the New Moon, if you are a man or not of childbearing age, or when you are in your new moon cycle if you are of childbearing age.

Working with the Spirit Beings requires a mature attitude, genuine curiosity, and dedication. Our Ancient Ancestors called upon the Spirit Intelligences to work with them on everything from housework to astral projection. In order to regain our connection with these Spirit Intelligences, you must first remember who you are: Stardust wrapped in Flesh, a Child of Light, A Human Ego with Divine Spiritual Connections, and most importantly a Divine Being manifesting the Fruits of the Spirit.

The Goddesses of Karma and the Divine Director have instructed me to produce this work as a workbook to learn the Earthly Mother Angels for the Spiritualite Nation. This is available on my website.

Woe unto anyone who may use this information to harm a Child of Light!

Peace and Blessings unto you,

Pisces- Talisman to be drawn in Blue Ink		
1° Pisces	HAJA	To raise the creative powers in all three planes, special secret methods are applied. This head knows about them and is quite willing to inform the magician of them. If the magician carefully follows the instructions given by this intelligence, he will soon be able to raise the dynamics necessary for practising quabbalistic magic and to do this without danger. HAJA will prove to be an excellent teacher for the magic of powers and the magician, apart from hearing about other facts, will learn from him, for instance, how to condense various types of fluids to bring about phenomenal effects.
2° Pisces	SCHAD	This Spiritual Intelligence constantly endeavours to facilitate, as far as possible, what man has to do in this world; thus, for instance, he inspires suitable persons with technical inventions of all kinds which are likely to replace manual work by machines.
3° Pisces	KOHEN	This Spiritual Intelligence also inspires man with new technical inventions with a special predilection for technical inventions in the field of agriculture. If the magician is interested, this head lets him behold, in the Akasha-principle, the progress in agricultural technology, which in the far distant future will facilitate man's work.
4° Pisces	ECHAMI	This Spiritual Intelligence controls the doings of human beings on earth and is therefore able to explain to the magician the secrets of the Karma-Yoga. To practice true Karma-Yoga means to carry out good deeds for no other reason but for themselves and by no means in order to get any kind of reward

		for doing so. ECHAMI teaching will make the magician realize how unselfish deeds are valued from the point of view of the Akasha-principle and are rewarded with various kinds of magical faculties and with delivery from the Karma. Having learned this, every magician will certainly long for situations which give him a chance for doing unselfish deeds. Such situations can be procured for the magician by ECHAMI and his subordinates.
5° Pisces	FLABISON	All kinds of arts, entertainments, pleasures and well-being and happiness fall under FLABISON competence. He can help the magician by bringing about situations if the latter wishes it - which bring good entertainment. If the magician himself is in need of recreation and enjoyment, in order to relax from his magic studies, which always require a state of seriousness, he should refer to this head, for he will prove the best guide in this respect.
6° Pisces	ALAGILL	With the help of this head the magician will be thoroughly successful in his profession. ALAGILL especially likes to help in the case of the arts and craft trades. However, since success alone in one's work is not enough, this intelligence secures for man also financial success. Therefore, the magician should regard this head an assistant in all material matters and he can be sure that he will never be denied his assistance.
7° Pisces	ATHEROM	This Spirit Intelligence brings good luck in all fields of science, success in learning and in any kind of intellectual work. He also helps everybody, either by his direct influence or by the influence of his subordinates, in getting the material he needs for his studies. If the magician wishes it, this intelligence will make him omniscient in any field of science, so that nothing will re- main an unrevealed secret to him.
8° Pisces	PORASCHO	This head has a similar range of competence as the foregoing one, with the only difference that he supports man in acquiring his knowledge at school whereas ATHEROM helps him acquire knowledge by private studies. PORASCHO therefore can make himself useful in cases of school- examinations and courses, should the magician need the assistance of this intelligence for someone who himself is not a magician.
9° Pisces	EGENTION	Everything referring to or connected with travelling comes under this head's range of power. The magician referring to this intelligence will always be a fortunate traveller and will succeed in everything planned by him and he will be safe of having any kind of accident whilst travelling, regardless whether he travels on the continent, over the water or through the air. When carrying this head's seal with him, the magician can never be met with a traffic accident.
10° Pisces	SIRIA	Special occult methods revealed to the magician by this head will bring him - depending on his degree of maturity - happiness, wealth, honour, riches and respect without influencing his Karma in a negative way. SIRIA can fulfil the magician any wish in this respect.

11° Pisces	VOLLMAN	This head will initiate the magician into the most subtle mysteries of light. Following this head's instructions, the magician will reach a degree of maturity which will enable him to apply the mysteries of light in respect of magic, quabbalah and alchemy, so that he will be able to achieve anything in all three planes - the astral, mental and physical. Apart from this, he will be set into a state of happiness which cannot be described.
12° Pisces	HAGOMI	This Spirit Intelligence reveals to the magician quabbalistic methods, regarding mental wandering and the elevation into other spheres that lie outside our planetary system. In these spheres the magician will acquire that kind of knowledge which a person not initiated into magic could never comprehend. HAGOMI will teach the magician how to influence our zone girdling the earth mentally, astrally and physically from other spheres in which he has set his mental body.
13° Pisces	KLORECHA	This head helps people who are eagerly longing to learn about the truth to acquire true occult knowledge. This he does by making it possible for them either to be directly taught by an initiate or by at least procuring for him books for private study. Klorecha is a great friend of occult philosophy.
14° Pisces	BAROA	Like many other heads of the zone girdling the earth, this one also is a friend and supporter of any kind of arts. He supports everything beautiful and ideal, in- spires writers, journalists, editors, poets and other artists in their work and helps them gain success in all their doings. If the magician refers to this head, he can be sure of his help.
15° Pisces	GOMOGNU	This Spirit Intelligence is the original initiator into that kind of language that is expressed by gestures, moving of hands, etc. The blind, too, are indebted to this head for their faculty to read by braille, i. e. for having inspired them in this respect. By his assistance the blind and dumb will be given better means of communication as time goes on and technological conditions improve. The magician can, if he wishes, look into the future and see what is to be.
16° Pisces	FERMETU	This head may justly be called the great creator of peace, since all matters which have to do with peace come under his competence, no matter whether whole nations are involved or whether peace in the family, peace in marriage, is concerned. FERMETU procures for the magician fortunate love, helps him to make friends and eternalises any kind of sympathy between man and woman.
17° Pisces	FORSTETON	Childless, infertile female magicians are given advice by this head on how to become fertile. He shows them means and ways by which they can determine in advance the sex of the baby they expect. If asked to do so, FORSTETON will remove from man or woman frigidity and increase their sexual powers. The methods revealed by this head will enable the magician to maintain the sexual and intellectual powers of youth until he is a very old man. A magician whose sexual powers decline, but who, for some reason or other, wants to

		increase them will not only find an excellent adviser in FORSTETON, but also a ready assistant.
18° Pisces	LOTOGI	<p>This Spirit Intelligence knows the secret methods for the manufacturing of most effective amulets and talismans to serve love, marriage and friendship. This head is quite willing to unveil his secret knowledge to the magician and even to charge the amulets and talismans for the magician. Since the range of competence of this head is very large, many other advantages will result for the magician, should he get into contact with him. For instance, he can learn how to get into contact with beings of the Venus sphere in a simple way; not only with the beings of that sphere, but also with human beings that live there. Once, I was accompanied by this head in the mental body when visiting the planet called Venus and was able to watch the life and doings of the Venusians, who have a light-silvery skin and are much more advanced in their spiritual development than man on earth: they are far more advanced in technology than we are. Due to their technical achievements they are able to leave their planet without effort and visit other planets without hindrance, contrary to man on earth, who has not yet been able to proceed far beyond the stratosphere. In size Venusians are somewhat shorter than we. However, on other planets, for instance on Saturn, there are human beings of the size of giants, so that, taking our measurements, one would have to take a ladder at least 30 feet high in order to get on top of the big toe of a Saturnian. Should a magician want to visit such a planet in order to get into contact with the human beings living there, he would have to expand his mental body in such a manner that he reaches the size of a Saturnian. The method to be applied for the expansion of the mental body has already been described in "Initiation into Hermetics".</p>
19° Pisces	NEARAH	<p>This Spirit Intelligence is an excellent inspirer of chemical, especially pharmaceutical, inventions. Depending on his degree of maturity he allows this or that innovation in pharmacy to become known through a suitable person. However, this head has a predilection for dental medicine and dental surgery and, under the seal of secrecy, he allows the magician a glimpse into his range of competence in the Akasha-principle, how far pharmacy science and dentistry will advance in the future. I was, for example, allowed to look into the future to see the changes in respect of pharmacy and dentistry: not only will man then be able to make artificial teeth from resistant materials, but new fantastic inventions will make it possible to grow natural teeth in adults. As soon as mankind has reached a certain degree of maturity, NEARAH will inspire suitable persons with the secret of making bad teeth fall out by themselves, without the necessity of a painful extraction, due to the application of certain pharmaceutical substances. After this the person concerned will grow new, healthy teeth within a very short time. Man will thus become master over the growth of his teeth. The same will then be the case with man's hair.</p>

		Hair getting grey or falling out will then be something belonging to the past. Each person will be able to choose the colour for his hair which he likes, without having to apply any hair dye. Though all this might sound like a fairy tale and bring doubts to the sceptical reader, it is the pure truth that will be proved by the future. But a magician who is able to proceed beyond time and space often prefers to keep silence in order not to become the object of scorn from immature persons.
20° Pisces	DAGIO	It is the task of this intelligence to see that man develops intellectually. If the magician follows the methods willingly offered him by DAGIO he will get a fantastic memory, will quickly become an intelligent being, mastering all situations in a verbal argument, and, above that, will prove suprisingly witty in all situations of life.
21° Pisces	NEPHASSER	Being a great messenger of fortune, this head, like many other intelligences of the zone girdling the earth, procure happiness, riches, material success and satisfaction for the magician. NEPHASSER also has at his disposal great treasures of spiritual knowledge, and the magician will get from him the kind of treasures that he asks for.
22° Pisces	ARMEFIA	A magician will seldom ask this head to help and assist him personally. However, in case he wants to help immature, magically untrained people, this head will certainly not refuse his assistance. Armefia can secure the protection of very important people, causes a just sentence if somebody is summoned to court innocently, lets the judge apply the most extreme leniency in case of a person being guilty and protects all those people who are exposed to great dangers.
23° Pisces	KAERLESA	Being master of the natural science, this head makes the magician understand thoroughly the laws of nature, especially the higher laws in all three kingdoms: the animal, vegetable and mineral kingdom. He allows the magician to penetrate deep into these laws and teaches him their magical application. The magician who is a friend of nature or even an explorer of nature will find that this head can be of great value to him in many respects.
24° Pisces	BILEKA	This Spirit Intelligence initiates the magician into the various types of meditation and teaches him their correct application for magical quabbalistic purposes. Due to the instructions received from BILEKA the magician, precisely following them, will develop such faculties which are almost unintelligible and which would strike any other person as incredible. But to be able to get into contact with this head, a certain degree of magical maturity is needed. The first evocation usually results in the appearance of this head's subordinates who tell the magician what preparations are necessary in order to get into good direct contact with BILEKA. Although well informed about the way one has to approach BILEKA I am not allowed to reveal this, and any other magician, too, will keep this a secret, for there exist mysteries that are never allowed to be published.

25° Pisces	UGOLOG	The methods which this head of the zone girdling the earth has at his disposal are known to only a few initiates on this earth. The magician who learns about them from UGOLOG is offered the possibility of acquiring the faculty which enables him to read any man's Karma in the mental, astral and physical world directly and clearly out of the Akasha- principle. The magician applying this head's methods will learn to read the past, present and future thoughts of any human being, his astral development from its origin to its perfect maturity as well as the physical fate of past or future incarnations. UGOLOG methods turn the magician into a famous prophet, that type of prophet that only occurs once in a while in history. In the olden times these methods were only revealed by the high priests to the most mature neophytes.
26° Pisces	TMITI	This head is the custodian of secret methods and he only reveals them to mature magicians. These methods enable one to draw down from planets and spheres planetary powers in a magical quabbalistic manner and to use them for special magical operations in the three planes; the mental, astral and physical, in the zone girdling the earth as well as in our material world. The effects brought about by the application of such powers are of such an enormous range that a non-initiate would only think them possible in a dream.
27° Pisces	LALONES	The magician is taught by this head all the mysteries of the microcosm and the macrocosm and he is also shown the way to acquire perfect divine cognition without having to choose the path of holiness and losing his magical individuality. Magicians following the instructions given by this intelligence will then be given by Divine Providence certain missions and tasks which they have to carry out in the zone girdling the earth, or even on our earth, and which make them teachers or assistants of mankind by the force of magic and the quabbalah, without the people concerned realizing the true authority of such great ones.
28° Pisces	CIGILA	Since this head is a special initiator into, and a teacher of, magical quabbalistic mysticism, he can make the magician acquainted with secret methods which enable the latter to develop within himself in all three planes - the mental, the astral and the physical - most perfect divine virtues by the help of magic and quabbalah. Having developed within himself these virtues, the magician will then find it easy to acquire all those faculties which are connected to these virtues. The magician following these secret methods becomes more and more mature in fulfilling carefully certain tasks according to the will of Divine Providence. However, CIGILA only reveals these secret methods to the magician who has already reached a certain degree of maturity in magic and quabbalah during previous incarnations. A magician developed due to these methods in a god-like creature, a personified deity, equipped with all the virtues, powers and faculties, equal to Divine Providence.

29° Pisces	YLEMIS	This Spirit Intelligence reveals to the mature magician the most secret mysteries of the love divine and makes him realize its range of power in the mental, astral and physical plane from the magical quabbalistic point of view. The realization of this divine love must naturally create within the magician a feeling of happiness which brings him up to the highest grades of ecstasy.
30° Pisces	BORIA	From this last head of the zone girdling the earth the magician can get thorough information on the correlative effects of elements and fluids in the whole microcosm and macrocosm, i. e. in all spheres and on all planets of the zone girdling the earth in all three planes - mental, astral and physical, and he can also get exact information on the magical application of these effects. If asked by the magician, this head can also inform him of the chemical compounds and original substances that exist on other planets, as well as of their effects and influence, i. e. of facts that are completely unknown on our earth. BORIA also teaches him their useful application not only for magical and quabbalistic purposes, but also in technology and chemistry. Guided by BORIA, the magician becomes an omniscient and omnipotent person in respect of the microcosm as well as the macrocosm and he cannot be governed by any other being but the One Unpersonified Divine Providence.
