

Shalom Beloved Family,

This document outlines the Spirit Intelligences the Angles/Angels in TAURUS. The simplest directions for these sigils or talismans is to write the names or draw the sigil in the described color on a piece of parchment paper inside of a Spiritual Cell Phone (or double circle) and consecrate the paper after Prayer and Fasting. For the initiates, construct the Talismans following a Spiritual Bath, utilizing the associated planetary/chakra incense with the Moon as the template for when to conduct the Talismans, ensuring that no spiritual work is done on the New Moon, if you are a man or not of childbearing age, or when you are in your new moon cycle if you are of childbearing age.

Working with the Spirit Beings requires a mature attitude, genuine curiosity, and dedication. Our Ancient Ancestors called upon the Spirit Intelligences to work with them on everything from housework to astral projection. In order to regain our connection with these Spirit Intelligences, you must first remember who you are: Stardust wrapped in Flesh, a Child of Light, A Human Ego with Divine Spiritual Connections, and most importantly a Divine Being manifesting the Fruits of the Spirit.

The Goddesses of Karma and the Divine Director have instructed me to produce this work as a workbook to learn the Earthly Mother Angels for the Spiritualite Nation. This is available on my website.

Woe unto anyone who may use this information to harm a Child of Light!

Peace and Blessings unto you,

As I have learned from personal experience with this head, he will introduce the magician to practices which are usually connected with the application of fluid condensers, which after having been transferred on blotting paper must be burnt. He likes to give the magician methodical instructions how to proceed with various magical practices for the making of friends, for the arousing of sensations of love, improving the power of propagation, etc. The magician may learn a lot from this head in this respect.
2° Taurus	MOLABEDA	If the magician wants to get in- to contact with this head, he will be taught by him how, by application of the electric fluid, in connection with the element of fire, various phenomena in nature, which are equivalent to miracles, can be caused. MANMES draws the magician's attention to various plants which can be used as incense material and which can serve the magician well as an aid for various operations.

4° Taurus	FALUNA	This intelligence is a very great friend of human beings, and helps the magician, should he want it, to wealth. It gives him various instructions how to make from plants certain substances which are able to preserve his body, or even to make it younger and more resistant against inharmonious influences - diseases and the like. FALUNA is an excellent instructor for the production of spagiric substances which can be gained from certain plants.

He is regarded as a perfect master of the making of pleasure and earthly happiness.
6° Taurus	CONIOLI	This head is an excellent mathematician and an expert in the knowledge of numbers. The magician is initiated into Astro-Quabbalah by this intelligence. CONIOLI knows how to express mathematically in numbers any power, faculty, realization etc. and, vice versa, how to explain to the magician any number in respect of its influences and qualities. Apart from this, CONIOLI teaches the magician how to make, from the magic point of view, practical use of the knowledge gained.
7° Taurus	CARUBOT	If the magician is a writer, this head may assist him by intuition and inspiration with proposals and projects for literary use and distinguished style. Magicians dealing with fairy tales, legends, sagas and the like, find in CARUBOT an excellent initiator.
8° Taurus	JAJAREGI	This Spirit Intelligence is a very great initiator, especially for writers on occultism, since he knows very well how to inspire the magician so that he is able to reproduce occult powers, effects, laws etc. in the form of novels. Many magicians who have published novels dealing with occultism may have been inspired by this intelligence without having been aware of it. On the other hand, JAJAREGI is also able to explain to the magician all occult novels, events etc. in respect of the universal laws and the laws of cause and effect on the mental, astral and physical plane, either personally or by his servants, or by intuition.
9° Taurus	ORIENELL	This Spirit Intelligence gives information on occult aids, auxiliary methods etc. which may contribute to the development of various mental, astral and physical faculties. ORIENELL also reveals to the magician by which manner he can acquire any certain faculty. Such aids are mainly rites, formulae or gestures as I know from own former practical experience with this head. 11° Taurus	DOSOM	This Spirit Intelligence is a very good initiator into occultism, especially hypnotism, medical magnetism etc. From this head the magician learns how to apply correctly hypnosis regarding spirit, soul and body. If the magician wants DOSOM to place any of his servants at his disposal, these servants will do all relevant operations and bring about the effects according to the magician's desire. These powers and faculties, however, must never be used for ignobel purposes, for otherwise the magician would get connected with the contra-genius.

13° Taurus	PAGULDEZ	This Spirit Intelligence is an excellent initiator into all the aspects of the magic of nature. If the magician gets into touch with this head, he learns from him, how to get going, by natural means, various powers, how to bring about certain causes, resp. effects which almost reach the unnatural. At the magician's special request this head will reveal to him by which means he can bring about various phenomena of nature. - For information I mention here that the contra-genius is guardian of the secrets of various sorcery projects of the magic of nature.
14° Taurus	PAFESSA	This Spirit Intelligence renders the magician professional assistance and inspires him to improve his professional situation. If, for instance, the magician is a businessman this head will help him, through his employees, to get more customers etc. PAFESSA is very polite and is always pleased to help the magician in any respect whatsoever on the physical plane. In the kingdom of gnomes this head is very much respected, and gnomes like to serve the magician if they have been told by PAFESSA to do so.
15° Taurus	JROMONI	This Spirit Intelligence, being an excellent initiator, he can inform the magician how to make money easily and quickly, providing Divine Providence approves of it - by wins, bets, speculations etc. JROMONI also knows where to find hidden treasures and if he thinks it wise he can tell the magician their exact location. However, this head knows very well, whether or not the assistance which he is to give the magician is permissable from the karmic point of view. If he should not give the magician the assistance he wants, he will tell the magician so during his first evocation and will only assist him as much as he is permitted by Divine Providence without burdening the karma of the magician. The magician should know that sometimes wealth, riches and surplus money may be great hindrances on the way to perfection.

16° Taurus	TARDOE	This Spirit Intelligence has the power to awaken in the magician various talents - for instance talents in art, literature or other - by suitable practices, rituals and the like, or, if the magician has the disposition for certain talents, to develop these quickly. If, for instance, the magician wants to make a career as an artist, he will find in this head the initiator and assisting friend that he needs.
17° Taurus	UBARIM	This Spirit Intelligence initiates the magician into the use of various means for the blazing up of love and friendship and he can give the magician many methods and instructions in this respect. The magician can learn much from this head in respect of fluids and their application for various purposes.
19° Taurus	CHADAIL	This Spirit Intelligence is a true guardian of agriculture, and, in general, he inspires not only the magician in this physical world, but also all those people that have to do with agronomy, agrochemistry, agricultural improvements and the like. If the magician is a farmer, he can learn from this head how he can improve his soil either by normal means or in an occult manner in order to effect an accelerated growth of his plants; furthermore, how by the radiations of various chemical products he can increase the productivity of his soil in respect of quality and quantity. He also draws the magician's attention to various labour methods and instructs him how to achieve a better growing of natural products by the help of the electromagnetic fluid, or the elements, or quabbalistic methods. By the assistance of CHADAIL or his servants the magician is able to get almost phenomenal results in agriculture.
20° Taurus	CHARAGI	This head is a marvellous inspirer of technical inventions for agricultural and forestry purposes. If the magician gets into contact with CHARAGI, he can acquire much experience by this intelligence or by its servants in the above mentioned fields.
21° Taurus	HAGOS	This Spirit Intelligence is a master of the magic of polarisation and electric fluid. He instructs the magician how to bring about an accelerated growth of plants by the magic of polarisation in connection with the electric fluid, how, for instance, he has to proceed in order that a seed which has just been planted grows into a tree with fruits within an hour. Fakirs who are able to grow a tree from a seed within an hour this miracle is known in India as the so-called true miracle of the mango-tree- do this by means of their knowledge of the magic of polarisation and of

		the electric fluid. Such a thing is no secret for the magician, and I have already mentioned in "Initiation into Hermetics" that this phenomenon is brought about by the application of the electromagnetic fluid, by the application of the magic of polarisation. I mention this here because the magician may be enabled by HAGOS or his servants to create the same phenomenon.
22° Taurus	HYLA	This Spirit Intelligence can help the magician acquire a clear mind, good power of judgement, sagacity and cleverness through the channels of high intuition and inspiration. He can help the magician either personally or by one of his servants with various affairs, for instance, with examinations in diverse fields of science in this physical world, and more of that sort.
23° Taurus	CAMARION	By this head the magician will be informed of the magic relations between the various kinds of food from the point of view of health and the harmony of the body. CAMARION instructs the magician which food he should choose, whether fruits or prepared compound meals, in order to adhere to the occult laws of analogies. Through the channels of intuition and inspiration the magician is revealed by CAMARION how foods and meals are to be charged, what fluid, electric or magnetic, is to be used, or what elements have to be employed to bring about a certain effect on the mental, astral or physical body. He is an excellent inspirer with regard to diet - especially in respect of diseases of any kind, i. e. disharmonies of body, soul and spirit. He is always prepared to give the magician his assistance.
24° Taurus	CAMALO	This Spirit Intelligence is, apart from having other faculties and ranges of effectivity, very well acquainted with the secrets of mineral compounds and their occult application, and he guards these secrets well. Above all, he informs the magician about the analogies of various metals to the spheres, powers, individual spirits etc. and how these powers can be magically made use of in the mental, astral and physical world. If requested by the magician, he will reveal a number of formulae for the making of fluid condensers, and also for the true Electromagicum which is used for various purposes; thus for instance, for the manufacture of a magic mirror, wand etc. Naturally, the magician also learns from this head in which manner these fluid condensers are to be charged for magical use and various purposes in the zone girdling the earth and in our physical world.
25° Taurus	BAALTO	This Spirit Intelligence informs the magician on the various kinds of work in mines. He supervises the gnomes of the underworld of our planet and knows about all the subterranean waters and ores. He can also give the magician information on volcanos and tell him the exact moment of their eruptions. Besides this, BAALTO can give him methods and instructions on how to use magically, for the most various purposes, the currents existing below the surface of the earth. If requested, he will introduce to the magician the art of working with a

		divining rod and the appliance of the sideric pendulum regarding its faculty for finding electromagnetic currents as well as a great number of other things of this nature.
26° Taurus	AMALOMI	This high inspirer is regarded as the cosmic language teacher. By him the magician is instructed how to use Quabbalah, that is the cosmic language with reference to the physical world. AMALOMI initiates the magician into many formulae and Tantras, and, at the same time, teaches him how to dynamise these in order to bring about effects by force of the Akasha-principle in the mental, astral and physical world.
27° Taurus	GAGISON	This head is regarded - in the zone girdling the earth - as a universal philosopher. By intuition he makes the magician comprehend all religious systems of this physical world of the past and the present, as well as their true legality. The magician who is a friend of this head can learn a great deal from him and get to the bottom of any religious system that he wants to scrutinize from the hermetic point of view, and find the universal laws effective in it. At the same time he realizes to what extent universal laws have been hidden, veiled or misunderstood, and may correct these errors from the philosophical point of view for his personal use. Philosophy of religion will teach him how to separate the chaff from the wheat. If the magician contacts GAGISON often, he will soon see that from the days of yore all religious systems have been following the universal laws like Ariadne's thread and that up to the present day these laws are more or less strongly manifested in any religious system.
28° Taurus	CARAHAMI	This head could rightly be called the teacher of cosmic universal physics. He makes the magician understand the cosmic powers, their analogies and their legality in nature, and teaches him how to control them. CARAHAMI can reveal to the magician many metaphysical and metapsychic secrets in regard to nature. Phenomena that have become clear to the magician in their causes and effects due to his growing knowledge of cosmic powers do not leave him in any doubt, and he not only finds the correct explanation for any natural phenomenon, looking at it from the hermetic angle, but, depending on his personal maturity he is able to bring about such phenomena by himself. A true magician, however, will never dare to cause any chaos by magical operations of this sort, for he would only heavily burden his Karma by doing so.
29° Taurus	CALAMOS	This Spirit Intelligence can reveal to the magician excellent methods for the grafting of plants in our physical world. But since he has a great affection for the sea and the lives in the sea, he can, apart from that, name the magician special magical methods by which he gets under his power and controls everything that lives in the water. CALAMOS can inform the magician of magic spells which will calm the rough sea, and also teach him how to protect himself during voyages. In the case of danger, when a ship with the total crew is likely to sink, a magician who is in connection with CALAMOS will always

		<p>be able to find a way for the rescue. If the magician requests it, CALAMOS will also place at his disposal elemental beings of the sea, or he will instruct him how to get into contact with beings of the sea. Undines, dwelling near lonely beaches, and all subterranean beings highly esteem this head of the zone girdling the earth, and meet him with the greatest possible awe, fulfilling at once anything that he may order or desire.</p>
30° Taurus	SAPASANI	<p>This Spirit Intelligence is an excellent master of the magic of water. All being living in the water and all elemental beings obey this head. His special knowledge is connected with the use of sea salt for purposes and operations of alchemy and magic. The magician is informed by SAPASANI how he can get into touch with water beings in a sympathetic manner by using a small punch of sea salt, how he can make useful, for various purposes, the powers of the elemental beings of the sea, and he is initiated into many other practices by this head of the zone girdling the earth.</p>
