

Shalawam and Grand Rising Jacob!

It has been quite a minute since I have sat down and shared in written form. I know I said I would be away for a bit, but that bit was longer than anticipated. I initially pulled away as TMH gave me a new assignment. I am still working on that assignment, however, it is quite intense and is requiring an exceptional amount of research, reading, pausing and checking in with the Spirit and observing others. The Creator as grand as He is, sent an angel in human form to lead me through much of that project.; however, I ended up stepping back for a moment, as I went out of town for 10 days. I will share more about my 10 day trip in Part II of The Heavens Speak.

I, like many of you are newly learning that we should indeed look up and pay attention to the Stars and what's going on in the Heavens. Brother Big Levi's (BBL) discussions and teachings, as well as the information from other brothers and sisters in the Nation on the heavenly bodies has caused us all to stop, mark out calendars and not only look up, but to begin to read, research and study as we are becoming crystal clear that this information truly matters in our spiritual journey. This information can aide us in understanding who we are, when we should take particular actions and when we should refrain; as well as aiding us in interpreting and understanding the signs of the Times. I hope you all are aware that tomorrow is a truly significant day!

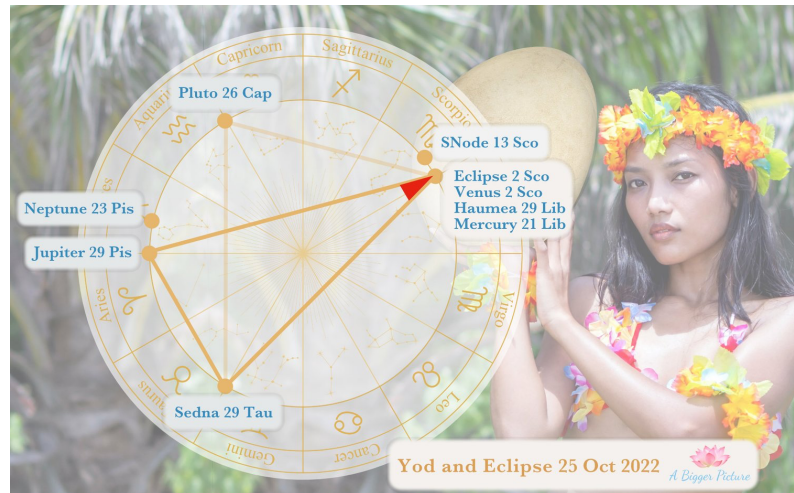

As BBL mentioned during this weeks prayers, tomorrow, Saturday, October 22, 2022 there is a new Energy Shift happening. This information from the Heavenly bodies, does as it always has, it aligns with the prophecies that are coming to pass. Tomorrow, 10/22/2022, is the last day that Venus will be in Libra. I initially, thought that Venus would be entering Venus, but upon some additional research, 10/22-23/2022, is actually the last day that Venus will be in Libra. I learned of this from a website that BBL showed us during a zoom call, ThePlanetsToday.Com (link below) This website shows you the position of the Heavenly Bodies in real time, as well as being able to go forward and backwards. This is how I discovered that Venus was already in Libra and would be leaving Libra on the 22nd/23rd. I also noted that as I fast forwarded that Venus was conjuncting with Haumea and Oriel.

Thus, upon further research I confirmed that what actually makes this day super significant, is that Venus will still be in Libra, (a rare occurrence) while in conjunction with The Sun/Oriel and Haumea and is in a square with Pluto. According to thebiggerpicture.com; "Venus Sun Superior Conjunction 22/23 October 2022... will occur just before the 25 October 2022 eclipse, Venus makes an exact superior conjunction to the Sun at 29 degrees of Libra on the 22/23rd (depending where you are in the world). This is a highly significant Venus Sun Superior conjunction, since it is also conjunct Haumea at the apex of an active Haumea Yod, and also in tight square to Pluto, and inconjunct Sedna. The Mercury retrograde that proceeds the October eclipses, carries a strong MakeMake theme, and a similar Venus Sun superior conjunction is in its discovery chart."

Furthermore, both of these celestial events have not occurred in 250 + years. The last time that Venus entered Libra was during the 1770's and the last time Haumea was on this side of Oriel/Sun was approximately 1760, 285 years ago; thus, this plus the conjunction of the Sun/Oriel, makes this event super duper significant!

Well, what does all of this mean for you and me? Well, one, the shift of Venus ruling for the next several hundred years versus Mars ruling is a shift to love, peace and harmony; unlike the last several hundred years when the sword has been the blessing. Thus, the prophecies of Esua's demise are being affirmed in the Heavens. I have also learned that the fall/harvest months are the months of wealth and abundance. September is the King of wealth, October is

the Queen of wealth and November the Jack of wealth. Hence, the shift of resources and wealth is occurring with the shift of the Stars/ Planets. Therefore, it would behoove you and me to tap into these Energies through prayer, meditation and of course it would not hurt to open the Four Quarters and light a white candle, beginning tonight through Sunday, seeking the positive Energies of Love, Beauty, Peace, Harmony and Abundance that The Creator is restoring back for His Chosen.

I have always quoted and embraced the scripture, “my people perish for a lack of knowledge” however, I had no idea how much knowledge we actually lacked!! Learning Astronomy and Astrology are extremely in-depth areas of study. I actually read through 5 different books before attempting to write this article. I learned quite a lot about the various houses and the exhalations of the Stars and Planets based upon the House/Zodiac they are dwelling. I will follow up with a Part II with more information on understanding the significance of the movements in the Heavens. However, I do want to make sure that you all receive this information tonight, so that you might mentally, emotionally and spiritually prepare to receive the return of the Spirit of Jacob; Love, Peace, Harmony and Abundance of the Spirit of The Most High! Our Creator, Our Redeemer and The Destroyer!

Stay tuned for Part II. It’s good to be back and I can’t wait for the next family/Jacob/Zion Zoom!

Much Ahab!

Mama T
